TALES

Every experience of Edinburgh Gin is

these tales take on a poetic life of
their own.

PROTECTING OUR FUTURE

While we respect the past, we also care about the future.

Our liquid waste is channelled in CO2-exposing reed beds and our solid waste is harvested for enough energy to power 354 homes each year.

Just like the gowans who visit our glen each winter, we harness the power of wind to help us reach our destination by ensuring all our electricity from turbines.

So with each sip of Glengoyne we take our glen to a greener future.
